

Flexible And Crush- Resistant

Flexible in all directions, self-supporting, ideal for tight locations.
Stainless Steel or Aluminum.

Class 1 Air Ducts

Flexible metal ducts. High or low pressure. Insulation available with polyethylene or metalized polyester

vapor barriers. Acoustical ducts available for sound-sensitive applications.

2" to 18" ID.

High Velocity Sound Attenuators

Final silencer in the HVAC system.

Eliminates box-to-box crosstalk. Ideal for use with VAV boxes.

Strong, flexible duct is excellent for difficult offsets, non-linear routes.

Spun aluminum end caps standard.

UL 181, Class 1.

Cost-Saving

Virtually eliminates the need for custom offsets or fittings.

Quadroflex[®] ducts:

rectangular or oval. 50%

lighter than rigid ducts. 7/8" round to 8" x 18" rectangular ID.
