Removing Bolts!**

# Sky-Tie™

## Bus-Drop Cable Clamps

### Supports...

Cable up to 1-1/8" diameter. Uniform "lap" design of each clamp-half results in support along the entire quarter bend.

### Anchors...

Cable for 90° angle transitions using a simple, two-piece construction of interchangeable clamp-halves.

### Loops...

Excess cable for convenient handling and out-of-the-way storage, via the Sky-Tie™ SHD Duplex Converter. The SHD reduces the need to cut cable when machines are moved to new locations. The SHD converter simply fits between the two halves of the Sky-Tie™ SH cable clamps.

### Perfect For:

- Machine Tools
- Portable Tools
- Air Lines
- Other heavy-cable support applications.

### Sky-Tie™ Springs

Heavy-duty Sky-Tie™ Springs insure tautness of the cable, while absorbing vibrations and shocks. Each spring slips into the Sky-Tie™ clamp at its outside bend (or, if using the SHD Duplex, the converter's outside bend), and ties back to a structural member. Three spring models with maximum load capacities of 60, 70 and 160 pounds.
